

Operators Reconnect Unit 1 at PPL Susquehanna to Power Grid After Completing Valve Repair

BERWICK, Pa., July 22, 2013 /PRNewswire/ -- Operators reconnected the Unit 1 reactor at PPL's Susquehanna nuclear power plant to the regional electric grid Sunday (7/21), after repairing one of four valves that control the amount of steam going into the turbine.

Unit 2 is operating at full power.

The Susquehanna plant, located in Luzerne County about seven miles north of Berwick, is owned jointly by PPL Susquehanna LLC and Allegheny Electric Cooperative Inc. and is operated by PPL Susquehanna.

PPL Susquehanna LLC is one of PPL Corporation's generating affiliates. PPL Corporation (NYSE: PPL), with annual revenue of more than \$12 billion, is one of the largest companies in the U.S. utility sector. The PPL family of companies delivers electricity and natural gas to about 10 million customers in the United States and the United Kingdom, owns more than 18,000 megawatts of generating capacity in the United States and sells energy in key U.S. markets.
