

PPL EnergyPlus® Opens Satellite Office in Pittsburgh

Commercial and industrial customers now have a local, hands-on representative from PPL EnergyPlus

PPL EnergyPlus

As PPL EnergyPlus expands its footprint into western Pennsylvania and Ohio, the company has solidified its commitment to serve commercial and industrial businesses in the region by opening a satellite office in the heart of Pittsburgh at 707 Grant St., Suite 1122.

Spearheading the expansion in the region is Clint S. Zediak Jr., regional sales manager. Zediak, a Pittsburgh native with 15 years of experience in the energy industry, brings the company's brand of personal, friendly and responsive service to commercial and industrial electricity consumers.

"I was born and raised in the Pittsburgh area, and I couldn't be happier being back and supporting PPL EnergyPlus as it grows its retail business here and expands into Ohio. I'm looking forward to talking with local businesses and determining how PPL EnergyPlus can help them manage their electricity costs," Zediak said.

The company, which is the marketing and trading arm of Allentown-based PPL Corporation, offers large commercial and industrial businesses a variety of competitively priced energy procurement strategies and customized energy solutions, including the ability to benefit from demand-response programs, renewable energy services and mechanical services.

PPL EnergyPlus currently offers electricity supply to residential customers in the Duquesne Light electric service territory. The residential offer for new customers is a fixed price of 6.48 cents per kilowatt-hour through the customer's meter read including May 31, 2014.

The company also offers electricity supply to residential customers in areas served by PPL Electric Utilities, PECO, Met-Ed and Penelec.

PPL EnergyPlus is an asset-backed, Pennsylvania-based competitive energy supplier, licensed by the Pennsylvania Public Utility Commission and founded in 1998.

It is a subsidiary of PPL Corporation, a Pennsylvania-based FORTUNE 500® corporation with more than 90 years of experience in the energy business. PPL EnergyPlus buys and sells energy commodities and structured products in competitive wholesale markets. Backed by the diverse power generation and natural gas supply portfolio provided by its affiliates, PPL EnergyPlus is well-positioned to provide customers comprehensive energy solutions. PPL EnergyPlus offers electricity, natural gas, renewable energy, and other products and services to commercial, industrial, and institutional customers. The company also offers electricity supply to residential customers in select markets. PPL EnergyPlus Retail, an affiliate of PPL EnergyPlus, offers petroleum products to large commercial and industrial customers.
