

Operators Reconnect Unit 2 at Susquehanna Nuclear Power Plant

BERWICK, Pa., March 26, 2014 /PRNewswire/ -- Operators at PPL's Susquehanna nuclear power plant reconnected the Unit 2 reactor to the electrical grid Tuesday (3/25) after repairing a valve on a non-safety-related water supply pump.

Operators shut the unit down early Thursday (3/20) to establish the working conditions needed to perform the required maintenance on this valve.

Unit 1 continues to operate at full power.

The Susquehanna plant, located in Luzerne County about seven miles north of Berwick, is owned jointly by PPL Susquehanna LLC and Allegheny Electric Cooperative Inc. and is operated by PPL Susquehanna.

PPL Susquehanna LLC is one of PPL Corporation's generating affiliates. PPL Corporation (NYSE: PPL), with 2013 revenues of \$12 billion, is one of the largest companies in the U.S. utility sector. The PPL family of companies delivers electricity and natural gas to about 10 million customers in the United States and the United Kingdom, owns more than 18,000 megawatts of generating capacity in the United States and sells energy in key U.S. markets.
