

PPL Electric Utilities Names Senior Vice President

PRNewswire-FirstCall
ALLENTOWN, Pa.

The domestic electricity delivery subsidiary of PPL Corporation (NYSE: PPL) Monday (10/23) named a 25-year industry veteran as its senior vice president of Transmission and Distribution Engineering and Operations.

David G. DeCamppli, who has served as vice president, Asset Investment Strategy and Development, for Exelon Energy Delivery in Chicago, will join PPL in early December.

"We are very fortunate to welcome Dave to PPL," said John Sipics, president of PPL Electric Utilities. "His addition to the executive team will further strengthen an already high-performing organization."

In this newly created position, DeCamppli will report directly to Sipics and have responsibility for the day-to-day operations of PPL Electric Utilities, including maintenance, repair and construction services, customer service, planning, engineering and transmission operations.

In his current position at Exelon, DeCamppli has responsibility for the company's reliability and operational performance investment strategies and system capacity planning for both PECO Energy in Philadelphia and Commonwealth Edison in Chicago.

He started his career at PECO Energy as a project engineer and worked in a number of positions of increasing responsibility before being named director of Customer Service and Business Process Reengineering in 1992. He was named director-Transmission and Substations in 1995, director-Engineering and System Planning three years later, and vice president-Gas and Electric Operations in 1999.

Following PECO's merger with Commonwealth Edison in 2000, he was named vice president-Merger Implementation & Operations Strategy. He was vice president-Distribution Operations for Commonwealth Edison for a year before being named vice president and chief integration officer for a restructuring of PECO and Commonwealth Edison in 2003. He was named to his present position in 2004.

DeCamppli earned a bachelor's degree in electrical engineering from DrexelUniversity and a master's in organizational dynamics from the University of Pennsylvania.

PPL Electric Utilities Corporation, a subsidiary of PPL Corporation that provides electricity delivery services to about 1.4 million customers in Pennsylvania, has consistently ranked among the best companies for customer service in the United States. PPL Corporation also controls about 11,500 megawatts of generating capacity in the United States, sells energy in key U.S. markets and delivers electricity to more than 5 million customers in Pennsylvania, the United Kingdom and Latin America.
