

PPL Commences Exchange Offer for its Outstanding 7 3/4% PEPS(SM) Units; Offer Set to Expire at 5 p.m. EST on Dec. 18, 2003

PRNewswire-FirstCall
ALLENTOWN, Pa.

PPL Corporation (NYSE: PPL) yesterday commenced an exchange offer to holders of its outstanding 7 3/4% Premium Equity Participating Security Units (the outstanding PEPS Units) in order to reduce its future interest expense.

Under the exchange offer, up to \$572.5 million aggregate stated amount of the outstanding PEPS Units can be exchanged for PPL's 7 3/4% Premium Equity Participating Security Units, Series B (the new PEPS Units) and a cash payment by PPL of \$0.375 for each validly tendered and accepted outstanding PEPS Unit.

The exchange offer is scheduled to expire at 5 p.m., New York City time, on Dec. 18, 2003, unless earlier terminated or extended by PPL. The conditions of the exchange offer, which may be waived by PPL, include, among other things, the valid tender at the expiration of the exchange offer of at least 35 percent of the outstanding PEPS Units and the continued listing of the outstanding PEPS Units on the New York Stock Exchange (NYSE).

The outstanding PEPS Units, which were issued in May 2001, consist of a five-year trust preferred security with an initial fixed interest rate of 7 3/4% and a forward sales contract that requires the holders to purchase PPL's common stock at a designated price in May 2004. The new PEPS Units will consist of a debt security with an initial fixed interest rate of 7 3/4% and an identical forward sales contract. In 2004, PPL is required to remarket the fixed income securities that are components of the PEPS Units.

One of the significant differences between the new PEPS Units and the outstanding PEPS Units is that, at the remarketing, the fixed income securities that will be components of the new PEPS Units will become senior unsecured debt obligations of PPL Capital Funding, Inc., guaranteed on a senior basis by PPL. The fixed income securities that are components of the outstanding PEPS Units will remain trust preferred securities that represent undivided beneficial interests in the subordinated notes of PPL Capital Funding, guaranteed on a subordinated basis by PPL. As such, based on the current investment grade credit ratings on senior unsecured debt of PPL Capital Funding guaranteed on a senior basis by PPL, PPL expects the remarketed debt securities of the new PEPS Units to have an investment grade rating. Conversely, since the trust preferred securities of the outstanding PEPS Units are rated below investment grade, PPL expects the remarketed trust preferred securities to remain rated below investment grade. PPL expects the interest rate on the remarketed debt securities to be lower than the interest rate on the remarketed trust preferred securities.
